Who Should Attend?

The target audience for our program includes Physicians (clinical and interventional cardiologists, electrophysiologists, cardiac surgeons, family practice, internal - emergency - geriatric medicine and primary care), Mid Level Providers (Nurse Practitioners, Physician Assistants), Nurses, Medical Assistants and all Allied and Home Healthcare Professionals who care for patients with cardiovascular disease, Fellows, Residents, Medical Students and Trainees.

Why You Should Attend

CVI's Annual Cardiology Update is the longest-running program of its kind in the Delaware Valley. The 26th Annual CVI Cardiology Update features an outstanding diverse faculty of national thought leaders, Drs. Valentin Fuster and Milton Packer. It also features regional experts providing the most relevant and up-to-date information on diagnosis, management and prevention of cardiovascular diseases and concomitant conditions.

Focus topics include: How legislation affects medical practice; Advances in the management of CVD; Updates related to PCSK9 inhibitors; Recognizing and optimizing cardiovascular risk in women; Heart failure with a preserved ejection fraction; New diabetes drugs for the cardiology practice; Contemporary management of hypertension; New treatment options for cardiac amyloidosis; New paradigms in structural heart disease management; Detection and management of atrial fibrillation.

The goal of CVI's Cardiology Update is to provide physicians and all healthcare professionals with new information and tools to improve outcomes for patients suffering from cardiovascular disease.

Learning Objectives

After attending/hearing these presentations, attendees will be better able to...

- Review implications for providers and patients regarding test results
- Discuss the problems and frustrations with "prior authorization" and attempts to modify it
- Review advances in the management of CVD
- Discuss new approaches in the management of CVD
- Outline the role of PCSK9 inhibitors in treating patients with hypercholesterolemia
- Apply data from the REDUCE-IT trial to the management of hypertriglyceridemia
- Characterize the hormonal effects on CVD risk throughout a lifetime
- Differentiate when preventive treatment is indicated in child-bearing years, pregnancy and after menopause
- Describe new concepts in the pathophysiology of HFpEF
- Incorporate new approaches to the treatment of HFpEF
- Identify candidates for new diabetes treatments among patients with CVD.
- Recognize patients with increased risk of adverse reactions to new diabetes drugs
- Review role of beta blockers for management of hypertension
- Review antihypertensive choice for the management of hypertension
- Recognize how to diagnose cardiac amyloidosis in the clinical practice setting
- Review new options for the treatment of cardiac amyloidosis
- Describe the indications and limitations of TAVR
- Identify patients who may benefit from percutaneous management of mitral valve regurgitation
- Discuss when to choose which monitoring device for the detection of arrhythmias
- Appropriately identify patients with arrhythmias who are likely to benefit from device based therapy

Accreditation Statements:

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Einstein Medical Center and The Cardiovascular Institute of Philadelphia (CVI). Winstein Medical Center is accredited by the Pennsylvania Medical Society to provide continuing medical education for physicians.

Credit Designation Statement:

AMA: Einstein Medical Center designates this live educational event for a maximum of 8 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the educational event.

AOA: This program is eligible for 8 credits in category 2A of the American Osteopathic Association through the Pennsylvania Osteopathic Medical Association Foundation

Medical Knowledge MOC Credits/Points: Successful completion of this CME activity enables the participant to earn up to 7.5 Medical Knowledge MOC Points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

**Awarding of MOC points requires additional attestation, post program evaluation and test questions.

Please Note: Nurses and other healthcare professionals will receive a Certificate of Attendance, which can be submitted for CEU credits.
