Eugene Braunwald, MD

Distinguished Hersey Professor of Medicine,
Harvard Medical School

Milton Packer, MD

Distinguished Scholar in Cardiovascular Science,
Baylor University Medical Center

**Keynote
Speakers**

- 8.0 CME/CEU Credits
- 7.25 ABIM Medical Knowledge MOC Points

Goals & Objectives

Why You Should Attend:

CVI's Annual Cardiology Update is the longest-running program of its kind in the Delaware Valley. The 27th Annual CVI Cardiology Update features an outstanding diverse faculty of national thought leaders, including our Keynote Presenters, Drs. Eugene Braunwald and Milton Packer. CVI's Cardiology Update also features regional experts providing the most relevant and up-to-date information on diagnosis, management and prevention of cardiovascular diseases and concomitant conditions.

Focus topics include: SGLT2i for Cardio Renal Failure, Secondary Prevention of ASCVD, Role of Icosapent Ethyl in CVD Prevention, Physician Implicit Racial Bias in Medicine, Quadruple Therapy for Heart Failure and Reduced Ejection Fraction, Treating Systolic Heart Failure, Comorbidities Associated with Heart Failure, Antiplatelet and Anticoagulation in CAD Patients, Transcatheter Therapies for Structural Heart Disease, Medical Management of Atrial Fibrillation, and Virtual Care in Cardiology.

Target Audience:

The target audience for our program includes Physicians (clinical and interventional cardiologists, electrophysiologists, cardiac surgeons, family practice, internal medicine (emergency medicine, geriatric medicine, and primary care); Mid Level Providers (Nurse Practitioners, Physician Assistants); Nurses; Fellows; Residents; Medical Students and Trainees; Medical Assistants and all Allied and Home Healthcare Professionals who care for patients with cardiovascular disease

Learning Objectives:

After attending CVI's 27th Annual Cardiology Update, attendees will be better able to:

- Describe how SGLT2i improve cardiac and renal function
- Explain mechanisms of action for SGLT2i
- Discuss goals of further research related to SGLT2i
- Review recent CV outcomes trials with addition of non-statin medication to statin therapy
- Identify high-risk groups of patients who have demonstrated benefit with non-statin therapies
- Implement evidence-based guidelines for LDL-C lowering and ASCVD risk reduction
- Interpret the current evidence from ASCVD outcomes trials with the "TG-lowering" agents, fibrates, niacin and prescription omega-3
- Optimize individualized treatment regimens for ASCVD risk reduction in patients with mild to moderate TG elevation, based on the latest evidence and official statements regarding prescription omega-3
- Define Implicit bias
- Differentiate explicit racial bias (racism) from implicit racial bias
- Discuss 2 strategies to reduce implicit racial bias
- Describe the components of quadruple therapy for heart failure in patients with reduced ejection fraction
- Identify patients with heart failure and reduced ejection fraction who might benefit from quadruple therapy
- Comply with guidelines in the treatment of patients with stage B and stage C heart failure
- Refer patients with stage D heart failure who require advanced heart failure treatment
- Recognize the importance of co-morbidities in the life of heart failure patients
- Explain the roles of anemia, sleep disorders, chronic kidney disease, hypertension and diabetes in the pathophysiology of heart failure and disease progression
- Utilize guideline directed therapy for comorbidities often seen in patients with heart failure
- Examine recent clinical data and guideline updates on the duration of dual antiplatelet therapy (DAPT) in stable ischemic heart disease (SIHD) and acute coronary syndromes (ACS).
- Review recent clinical data and guidelines updates on the optimal use of antiplatelet therapy in patients with clinical indications for oral anticoagulation (OAC) therapy.
- Identify patient, clinical, procedural, and stent related factors that can be used to estimate increased bleeding and ischemic risk and assist in individualizing DAPT duration.
- Review recent trials for TAVR and implications on a low Surgical risk Population
- Identify patients for left atrial appendage closure and review of clinical trials
- Examine recent data on the management of mitral valve regurgitation, with special focus on the management of functional mitral valve regurgitation.
- Recognize the clinical variables that need to be considered when choosing anti-arrhythmic drug therapy for atrial fibrillation.
- Identify common side effects of anti-arrhythmic drugs used in the treatment of atrial fibrillation.
- Calculate the QTc interval in patients with a wide QRS complex.
- Describe the difference between telemedicine and virtual care
- List the existing tools available for virtual cardiovascular care
- Characterize the components needed when transitioning to value-additive virtual cardiology

Accreditation Statement

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Einstein Medical Center and The Cardiovascular Institute of Philadelphia (CVI). Einstein Medical Center is accredited by the Pennsylvania Medical Society to provide continuing medical education for physicians.

Credit Designation Statement

AMA: Einstein Medical Center designates this live educational event for a maximum of 8.0 *AMA PRA Category 1 Credits™*. Physicians should only claim credit commensurate with the extent of their participation in the educational event.

AOA: This program is eligible for 8.0 credits in category 2A of the American Osteopathic Association through the Pennsylvania Osteopathic Medical Association Foundation.

MOC Statement

Medical Knowledge MOC Credits/Points: Successful completion of this CME activity enables the participant to earn up to 7.25 Medical Knowledge MOC Points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

**Awarding of MOC points requires additional attestation, post program evaluation and test questions.

Keynote Presenters

Eugene Braunwald, MD

Distinguished Hersey
Professor of Medicine,
Harvard Medical School

Milton Packer, MD

Distinguished Scholar in
Cardiovascular Science,
Baylor University Medical Center

Course Directors

Dean G. Karalis, MD FACC FNLA

Clinical Professor of Medicine
Thomas Jefferson University

Veronica A. Covalesky, MD FACC

Clinical Assistant Professor of Medicine
Drexel University College of Medicine

Associate Directors

Colin M. Movsowitz, MD FACC

Director of Cardiac Electrophysiology
Einstein Medical Center Montgomery
Main Line Hospitals

Andrew R. Waxler, MD FACC

President & Governor

Conflict of Interest Statement

Faculty and all others who have the ability to control the content of continuing medical education activities sponsored by the Pennsylvania Medical Society are expected to disclose to the audience whether they do or do not have any real or apparent conflict(s) of interest or other relationship(s) related to the content of their presentation(s).

Acknowledgement

All commercial support in the form of educational grants and display support will be acknowledged in the syllabus, on signage and verbally before the start of the program.

Live Webinar Agenda

CVI's 27th Annual Cardiology Update Clinical Management of Heart Disease

8.0 CME/CEU/VOICE Credits

♥ 7.25 ABIM Medical Knowledge MOC Points

Session 1 – Sunday, October 25, 2020 (3.0 Credits)

Introduction and Overview

Dean Karalis, MD 8:00am–8:15am

♥ Sodium-Glucose Co-Transporter 2 Inhibitors (SGLT2i) for Cardio-Renal Failure: 2 Paradigm Shifts

Eugene Braunwald, MD 8:15am–9:15am

♥ New Insights in Secondary Prevention of ASCVD: Identifying the Very High-Risk Patient

Pamela Morris, MD 9:15am–9:45pm

♥ Icosapent Ethyl - A Paradigm Shift in CVD Prevention

Eliot Brinton, MD 9:45am–10:15am

♥ But I'm Not Racist! A Primer on Physician Implicit Racial Bias in Medicine

Quinn Capers, MD 10:15am–10:45am

♥ Q/A & Discussion

Panel 10:45am–11:00am

Session 2 – Monday, October 26, 2020 (2.25 Credits)

Introduction and Overview

Veronica Covalesky MD 6:45pm–7:00pm

♥ Quadruple Therapy for Heart Failure and a Reduced Ejection Fraction: The New Paradigm

Milton Packer, MD 7:00pm–7:45pm

♥ Advances in the Treatment of Systolic Heart Failure

John Boehmer, MD 7:45pm–8:15pm

♥ Comorbidities Associated with Heart Failure

René Alvarez MD 8:15pm–8:45pm

♥ Q/A & Discussion

Panel 8:45pm–9:00pm

Session 3 – Wednesday, October 28, 2020 (2.75 credits)

Introduction and Overview

Andrew Waxler, MD 6:30pm–6:45pm

♥ Anti-Platelet and Anticoagulation Regimen In Patients With CAD

Sohah Iqbal, MD 6:45pm–7:15pm

♥ Update on Transcatheter Therapies for Structural Heart Disease

Muhammad Raza, MD 7:15pm–7:45pm

♥ Controversies and Clinical Pearls in Medical Management of Atrial Fibrillation – A Case-Based Approach

Peter Kowey, MD
Colin Movsowitz, MD 7:45pm–8:30pm

♥ Telemedicine Is *Not* Here to Stay - But Virtual Care Is

Jeff Wessler, MD 8:30pm–9:00pm

♥ Q/A & Discussion

Panel 9:00pm–9:15pm

Recorded Sessions for Credits thru 12/12/20

CVI is taking our accredited CME/CEU/SDMS/VOICE programs online — and we invite you to join us!

Until there is wide distribution of a safe and effective vaccine for COVID-19, CVI's catalogue of accredited programs will be offered virtually, online.

To make our accredited programs more user friendly, agendas are broken up into several shorter segments (2.25–3.0 credits per session.)

There are 2 easy ways to earn your credits:

- Watch programs *live* with hundreds of other health professionals
- Or watch the recorded proceedings on demand, at your convenience, for 45 days after the program (until 12/12/20 for CVI Cardiology Update 2020)
- All presentations have start and end codes which need to be included on program evaluation to claim credits
- If watching recorded proceedings, an *additional* quiz is also required
- Either format — you *must* register to receive a unique link to view the program

CVI's Online CME/CEU/SDMS/VOICE/MOC Programs offer you:

- Relevant, timely, interesting topics
- Nationally recognized thought leader faculties
- Registration fees discounted from in-person programs
- Early-bird discounts for those registering by 10/15/20
- And our FREE Apple iPad drawing!

For more information, accreditation requirements and a calendar of all of our accredited programs, please visit us online at cviphiladelphia.org.

FREE Apple iPad Drawing

In order to be entered into the FREE Apple iPad Drawing, you must:

- Register and pay for CVI's 27th Annual Cardiology Update by 5:00pm on Thursday, October 15, 2020
- Submit your fully completed online program evaluation for CVI's 27th Annual Cardiology Update by 5:00pm on Monday, November 16, 2020.
- And you are entered to win... **It's as easy as that!** Winner will be contacted via email.
