

CVI's Educational Program Series: Cardiac Amyloidosis

"Navigating the Complexity: Challenging Cases in ATTR-CA" Tuesday March 19, 2024 Hilton Philadelphia at Penn's Landing

Navigating the Complexity: Challenging Cases in ATTR-CA is designed for everyone with a foundational understanding of cardiac amyloidosis. The program will:

- *Afford attendees the invaluable opportunity to engage in an in-depth exploration of intricate case studies,*
- *The case studies will be guided by an expert multidisciplinary panel representing cardiology, neurology, and hematology.*
- *Illustrate the diagnostic journey and treatment options to improve patient's lives.*
